

The Heard County School System is proud to be part of one of the most innovative ideas of its time. The Baby Braves program was started in 2016 and serves children birth to 3 years of age. The program is designed to partner with parents by providing resources, networking, and agency connections. After signing up, there is an initial visit where a Heard County tote filled with books, puzzles, Heard Baby Braves shirt, and an Honorary Diploma is given to the child. There are also fun filled quarterly gatherings known as the “Baby Braves Class Reunions.” These reunions provide experiences for the children, additional resources and materials for the parents, agency information, and school connections.
